11. What is the fiscal year 2024 capability?

- a. This amount is the maximum funding level the Subcommittee will consider for inclusion in the appropriations bill. The existence of a capability amount does not guarantee that funding level – or any funding – will be able to be accommodated in the appropriations bill; it simply indicates the maximum amount that can be considered for inclusion.

12. For a Corps of Engineers project, is this project a new start?

- a. The Subcommittee may provide funding for a very limited number of new starts, if any. While new start requests will be accepted, Members should consider this limitation when making requests.

13. For a Bureau of Reclamation project, is this project authorized only under section 4007, 4009(a), or 4009(c) of the Water Infrastructure Improvements for the Nation (WIIN) Act of 2016 (Public Law 114–322)?

- a. If YES, the project is not eligible as a Community Project Funding request in the Energy and Water Development appropriations bill.
